

Best South Australian builders of 2018 named

This year's Building Excellence Awards are testament to the level of professionalism in South Australia's building and construction sector, Master Builders SA says.

For the first time in its 20-plus-year history, tonight's event at the Adelaide Convention Centre was a sell-out with 1300 industry delegates and representatives attending.

Chief Executive Officer Ian Markos said the awards represent the vitality and talent of one of the State's most important industries.

"The building sector sits at the core of our community; undertaking about \$16 billion of work every year, contributing more than \$1 for every \$7 of economic activity in South Australia, and directly employing more than 65,000 South Australians.

"The Building Excellence Awards is a time to celebrate and enjoy all of the positive aspects and achievements of our vibrant industry. It's a time to acknowledge some of the most outstanding accomplishments and recognise world-class building projects.

"This year's awards winners all worked extremely hard and demonstrated a professional desire to strive for excellence. The homes, hospitals and business centres that have been created and the specialist works that have been named thoroughly deserve this recognition. Our industry is in good hands."

Chairman of the Judges, Secure Storage Systems Director Tony Covino, said that the extensive judging process had revealed some of the exceptional work done by the State's building industry.

"The entrants this year were of an extremely high quality. The feedback I received from some of the longest-serving judges was that the standard of workmanship they saw made them proud to be part of the industry.

"Multiple judges served as a check and balance against any one judge's beliefs and interests in an extremely thorough process that is supported by, but independent of, Master Builders SA," he said.

This year's awards include recognition of Hansen Yuncken's Flinders Medical Centre redevelopment, Mossop Construction+Interiors' St Andrews Hospital Eastern Clinical Development and Sarah Constructions' Lions 360 enclosure at Monarto Zoo. A magnificently-built McLaren Vale home saw Finesse Built take out the Residential Building Project of the Year.

The night's main achievements were awarded to:

Bianco Precast	<i>Master Builder of the Year – Specialist Contractor</i>
Metricon Homes	<i>Master Builder of the Year – Display Home Builder</i>
Ikon Projects Pty Ltd	<i>Master Builder of the Year – Residential Builder</i>
Mossop Construction + Interiors	<i>Master Builder of the Year – Commercial Builder</i>
Joshua Semmler,	<i>Master Builder of the Year – Young Builder/Contractor</i>
Kieran Flanigan, CTP	<i>Certified Trade Professional of the Year</i>
Glenn Whyte, CCP	<i>Certified Construction Professional of the Year</i>
Matthew Ludwig	<i>Master Builder of the Year – Apprentice</i>

A list of awards follows on the next page.

MASTER BUILDERS
SOUTH AUSTRALIA

AWARD CATEGORY	WINNER & JUDGES COMMENTS	PROJECT	AWARD PRESENTER
Award 1 Excellence in Commercial / Industrial Building up to \$2m 622-001	(South Coast Constructions Pty Ltd) A difficult site, made more so, by adverse weather and the need to provide drainage solutions to existing and new works. The identification and resolution of potentially serious safety issues regarding the gas design, demonstrated the builders care and expertise and the new build was extremely well finished by South Coast Constructions	Pembroke Environmental Learning Centre	PB Visual Communications
Award 2 Excellence in Commercial / Industrial Building \$2m to \$5m 547-002	(Sarah Constructions Pty Ltd) Sarah Constructions delivered an excellent building and the judges were impressed by the quality of the highly detailed precast wall panels and brickwork that dominate the exterior of the building. Despite delays, as a result of latent soil conditions, the builder delivered the project 4 weeks ahead of a tight schedule.	St John's Grammar School	Print Solutions
Award 3 Excellence in Commercial / Industrial Building \$5m to \$10m 736-003	(Mossop Construction+Interiors) Mossop Construction plus Interiors, was required to fit out the 1st floor, which included rooms with complex medical services. Safety and environmental considerations were dealt with in great detail and with excellent outcomes. The client expressed their delight in relation to the way Mossop Construction plus Interiors conducted themselves throughout the entire preconstruction and construction phase.	Health Partners Southern Zone Hub	Wombat Studios
Award 4 Excellence in Commercial / Industrial Building \$10m to \$20m 584-004	(Kennett Builders Pty Ltd) A multi-faceted project finished extremely well and to the complete satisfaction of the client. The long lead times for many components of the project, particularly the fully imported glass house, was managed expertly by the professional team at Kennett Builders.	AGT Roseworthy	TAV Productions
Award 5 Excellence in Commercial / Industrial Building \$20m to \$50m 734-005	(Mossop Construction+Interiors) In a very competitive field where many entries achieved a level of excellence, this project emerged a worthy winner. It scored highly in all the assessment criteria, particularly in the standard of finishes,	St Andrews Hospital Eastern Clinical Development	MC Labour

47 South Terrace, Adelaide SA 5000

mbasa.com.au

 <p>MASTER BUILDERS SOUTH AUSTRALIA</p>	<p>value for money and a delighted client. Mossop's rose to the many challenges associated with this complex project and demonstrated how a collaborative approach between client, builder, consultants and trades is a win, win all round.</p>		
<p>Award 6 Excellence in a Commercial / Industrial Building \$50m to \$100m 538-006</p>	<p>(Built Environs Pty Ltd) From the outset, this project was tackled in a very professional manner. Built Environs was required to demolish two large buildings alongside a heritage building. Great initiative was shown in construction methodology, absorbing additional work throughout the project and finally achieving an excellent standard of finishes. This project was a worthy winner in this category and achieved a very high score.</p>	<p>Urbanest at the University of Adelaide</p>	<p>Cornes Toyota</p>
<p>Award 7 Excellence in a Commercial / Industrial Building over \$100m – Landmark Project 673-007</p>	<p>(Hansen Yuncken Pty Ltd) The combination of a new building and the refurbishment of another, on an environmentally sensitive site, was handled with exceptional expertise by a young and very enthusiastic team at Hansen Yuncken. The incredible achievement of completing this work in a very tight programme, is testament to how well this project was planned and executed. Hansen Yuncken scored highly across all assessment criteria and the judges had difficulty in faulting the workmanship. An accolade from the client topped off this very high scoring project</p>	<p>Flinders Medical Centre Redevelopment Project</p>	<p>Cbus</p>
<p>Award 8 Excellence in a Commercial Fit-Out up to \$5m 633-008</p>	<p>(SHAPE Australia Pty Ltd) The internal finishes of this project are extraordinary and the detail in the joinery is of furniture quality. The difficulty that SHAPE experienced in setting out joinery, ceiling and floor coverings on a radial grid added complexity to the project making this a very demanding undertaking. SHAPE was innovative by recommending that automotive finish powder coating be used to replicate solid brass elements in the facility, achieving the same appearance but requiring lower maintenance at a lower cost. SHAPE has produced an iconic facility.</p>	<p>Adelaide Oval Bodyline Bar</p>	<p>Adelaide Profile Services</p>
<p>Award 9 Excellence in a Commercial Fit-Out over \$5m 553-009</p>	<p>(Sarah Constructions Pty Ltd) This entry covered numerous separate projects within the Uni of Adelaide Campus. Most were locked within existing operating buildings and some had heritage issues as well. Sarah Constructions was</p>	<p>University of Adelaide Infrastructure Investment Program (IIP)</p>	<p>Ark:Media</p>

 <p>MASTER BUILDERS SOUTH AUSTRALIA</p>	<p>applauded by the client for the continuing discreet work of each project occurring with minimal disruption to the working university. Of particular note, was the proactive approach the team took to matters raised by the University, that weren't necessarily within their scope of work and they consistently met all key dates set by the Uni.</p>		
<p>Award 10 Excellence in a Commercial Refurbishment / Redevelopment up to \$5m 531-010</p>	<p>(Kym Clarke General Builders Pty Ltd) Kym Clarke General Builders completely renovated this cellar door restaurant. The work was completed by directly employed staff of Kym Clarke General Builders with only the services in the building being subcontracted out. The judges were extremely impressed with the stone masonry and the carpentry. Approximately 20,000 stones were cut to ensure that jointing was consistent, while the carpentry, joinery and furniture were all completed to extremely high standards. The collaboration between the builder and the owner was exemplary and Kym Clarke General Builders are to be highly commended for this outstanding project.</p>	<p>The Line and Label</p>	<p>SA Builder</p>
<p>Award 11 Excellence in a Commercial Refurbishment / Redevelopment over \$5m 585-011</p>	<p>(Chappell Builders Pty Ltd) The ability to coordinate with the client and existing shop owners to carry out this extensive build while keeping the shopping centre functioning was a key to the success of the project. The timeliness, glowing client reaction and wonderful workmanship gave this project the edge in a highly competitive category. Congratulations Chappell Builders.</p>	<p>Brighton Central Shopping Centre Redevelopment & Brighton Foodland Fit-out</p>	<p>Master Builders Australia</p>
<p>Award 12 Excellence in Civil / Engineering Construction 549-012</p>	<p>(Sarah Constructions Pty Ltd) This difficult, once in a lifetime project, was handled expertly by the project team at Sarah Constructions, providing the zoo with a highly successful outcome. A remote site inside a working free-range zoo, completed ahead of program and exceeding the clients expectations is a credit to the builder and their team.</p>	<p>Monarto Zoo – Lions 360</p>	<p>Master Builders Insurance Services</p>
<p>Award 13 Excellence in Retirement Living / Aged Care 733-013</p>	<p>(Mossop Construction+Interiors) This was a very fiercely contested category with many excellent entries being submitted. Mossop Construction plus Interiors performed exceptionally across all assessment criteria. This building was on a difficult site with a residential interface. Mossop's was extremely proactive in sensitively bringing the cost</p>	<p>Lifecare Joslin</p>	<p>Origin</p>

 <p>MASTER BUILDERS SOUTH AUSTRALIA</p>	<p>and delivery time of the project down, through clever value management. The client was delighted with the finished project, which was completed in a timely manner and to a tight budget.</p>		
<p>Award 14 Excellence in Structure / Envelope 525-014</p>	<p>(Bianco Precast) The client could not speak highly enough of Bianco Precast and their commitment to detail. On site, the judges gained an appreciation of the size of each precast panel and how they were placed together to form the bridge. The workmanship could not be faulted. The judges also had an opportunity to inspect the next bridge being made ready for installation and, with some reinforcing exposed, could appreciate the precision required to fit each panel into place. Innovation and attention to detail set Bianco's apart in this category.</p>	<p>Darlington Upgrade Bridge over Southern Expressway</p>	<p>MC Labour</p>
<p>Award 15 Excellence in Services 543-015</p>	<p>(O'Connors A.G. O'Connor Pty Ltd) A.G O'Connor has earned this award for many reasons, including commitment to industry leading innovation in the design, coordination, construction and commissioning of complex mechanical services projects. Despite the huge complexity and density of mechanical systems, O'Connors commitment, thorough engineering and quality installation led the University's independent Commissioning Agent to repeatedly describe the standard of installation to be the highest he had seen, anywhere.</p>	<p>Cancer Research Institute</p>	<p>Ark:Media Nominated by Hansen Yuncken</p>
<p>Award 16 Excellence in Interior / Finishes 703-016</p>	<p>(Thorne Constructions Pty Ltd) This extensive renovation completed by Thorne Constructions included two bathrooms as well as an internal and outdoor kitchen. The work was of exceptional quality with the skills of a cabinetmaker very evident. The owners were ecstatic with the entire renovation from the original planning phase where, as the owner said, the builder seemed to read her mind and drew up plans exactly as she had pictured, through to the completed project.</p>	<p>North Adelaide project</p>	<p>Sunday Mail</p>
<p>Award 17 Excellence in Domestic</p>	<p>No winner awarded</p>		
<p>Award 18 Excellence in Affordable and Public Housing</p>	<p>(Thorne Constructions Pty Ltd) To renovate a severely dilapidated building and produce such a great result with a limited budget and tight program,</p>	<p>Portway Housing Association</p>	<p>Sunday Mail</p>

	<p>displays the hallmark of an excellent project and outstanding Master Builder. The team at Thorne Constructions has excelled with this building project.</p>		
<p>MASTER BUILDERS AWARD 19 AUSTRALIA Commercial Building Project of the Year – 2018 673-007</p>	<p>(Hansen Yuncken Pty Ltd) This project required the combination of a new building and the refurbishment of another, on an environmentally sensitive site. It was handled with exceptional expertise by the team at Hansen Yuncken. The incredible achievement of completing this work in a very tight programme is testimony to how well this project was planned and executed.</p>	<p>Flinders Medical Centre Redevelopment Project</p>	<p>Cbus</p>
<p>Award 20 Excellence in Steel Frame / Lightweight Housing 770-019</p>	<p>(Adelaide Designer Homes) This distinctive home has several innovative features that demonstrate the flexibility of using steel framing in light weight construction. An excellent standard of finishes has been achieved throughout and the home represents very good value for money. Well done Adelaide Designer Homes.</p>	<p>Mt Barker Steel</p>	<p>Truecore</p>
<p>Award 21 Excellence in a Medium Density over 5 Dwellings 605-021</p>	<p>(Hindmarsh Constructions Pty Ltd) The workmanship and hands on approach in relation to the individual precast concrete panels is outstanding. Hindmarsh Construction carried out difficult precast work and the internal finishes, as well as the builders involvement in a lengthy and detailed Value Management process, is a credit to them.</p>	<p>BlueSky Student Accommodation (Atira)</p>	<p>Building Ideas</p>
<p>Award 22 Excellence in a Display Home up to \$200,000 640-022</p>	<p>(Rivergum Homes) This Rivergum Home has been designed to demonstrate interesting innovations and quality finishes. Combined, they deliver a very affordable home that represents excellent value for money, to suit first home buyers.</p>	<p>Alfi</p>	<p>James Hardie Australia</p>
<p>Award 23 Excellence in a Display Home \$200,000 to \$250,000 774-023</p>	<p>(Metricon Homes) A clear winner in this category. This 4 bedroom, 2 bathroom Metricon Home has a number of beautifully finished and unique aspects such as the impressive portico entrance, the carefully placed windows and the raked ceiling to the light filled living areas. Well built, well designed and excellent value for money.</p>	<p>Delta 25S Maine</p>	<p>SMEG</p>
<p>Award 24 Excellence in a Display Homes \$250,000 to \$350,000 574-024</p>	<p>(Bradford Homes) This category contained several outstanding entries and Bradford Homes has raised the bar for homes in a very competitive field. This home is beautifully finished with quality inclusions such as</p>	<p>Windsor</p>	<p>Colorbond</p>

	oversize doors, full height tiling, alfresco outdoor kitchen and air-conditioning. Excellent value for money and a worthy winner.		
MASTER BUILDERS <small>AWARD 25</small> <small>SCOTT SALISBURY HOMES AUSTRALIA</small> Excellence in a Display Home \$350,000 to \$500,000 578-025	(Scott Salisbury Homes) The Harrison Display Home by Scott Salisbury Homes, is exceptionally designed with stunning street appeal adapted to a compact corner allotment. Impeccable attention to detail in its many bespoke features is evident inside and out. Amazingly the home was completed in a 20-week build time and provides good value for money.	The Harrison	CSR
Award 26 Excellence in a Display Home over \$500,000 565-026	(Metricon Homes) Metricon's 'Somerset' display home, is a magnificently built 2-storey Georgian residence by a volume builder. The judges were impressed by the design and attention to detail. The sloping site posed extra difficulty considering the complexity involved in the build. The home exhibits a unique character, which is captured by the innovative Mansard roof design, the banded mouldings, the spectacular entry and the stunning curved staircase. A worthy winner.	Somerset 57A	Caroma
Award 27 Excellence in a Contract Home up to \$300,000 576-027	(Bradford Homes) This home makes the most of the very restricted amount of land available to it. It has surprisingly generous living areas and storage spaces. Bradford Homes has achieved a very high standard of detailing and finishes and the home represents very good value for money.	South Plympton Residence	Cornes Toyota
Award 28 Excellence in a Contract Home \$300,000 to \$500,000 748-028	(James & Sons Homes Pty Ltd) This large country home built by James and Sons Homes, has excellent finishes throughout with outstanding attention to detail. Client and sub-contractor relationships were well handled and it is very good value for money; especially, considering its distance from Adelaide.	Armagh Residence	Adelaide Profile Services
Award 29 Excellence in a Contract Home \$500,000 to \$700,000 616-029	(South Coast Constructions Pty Ltd) This exceptional family home in an exposed rural setting is very good value for money. The use of both lightweight construction and rammed earth has been achieved with an excellent level of detailing that complements its passive, energy efficient design. The finishes throughout are outstanding, providing a very high level of client satisfaction and South Coast Constructions are to be commended on this excellent project.	Middleton Residence	Building Ideas

<p>Award 30 Excellence in Contract Home \$700,000 to \$1m 747-030 MASTER BUILDERS SOUTH AUSTRALIA</p>	<p>(Klemm Homes Pty Ltd) The owners clear vision gave the team at Klemm Homes the confidence to push on with this challenging high quality build. This home is almost all carpentry based and finished to very finite tolerances. A project like this, with its intricately detailed external weather board cladding and the challenges of a sloping site and split level construction, required great innovation during the construction process. This property is a fine example of building excellence.</p>	<p>Beaumont Residence</p>	<p>James Hardie Australia</p>
<p>Award 31 Excellence in a Contract Home \$1m to \$1.5m 745-031</p>	<p>(Finesse Built) This home encompasses the integration of steel, spotted gum, tumbled bricks and aluminium. The three angled ceilings converging in the lounge, dining and kitchen area required Finesse Built to produce a quality focus, which adds to the aura of the build. The incorporation of air-conditioning, insulation, feature skylights and complex electrical operating features into a flat, dual angled roof, added to the challenge. It is evident that there was a high level of communication and trust between the builder, the subcontractors and the client.</p>	<p>McLaren Vale Residence</p>	<p>Origin</p>
<p>Award 32 Excellence in a Contract Home of the Year over \$1.5m 742-032</p>	<p>(Ikon Projects Pty Ltd) The passion for perfection by Ikon Projects, is obvious when you see the clean lines and a minimalist form influenced by Japanese Architecture, leaving no room to hide any imperfections. The most predominant feature of this home is the off-form concrete boxes that frame the building façades. The central staircase is piece of artwork in itself with solid floating timber treads that appear to be stacked without support and vertical stainless wiring that runs from floor to ceiling. The complexity of this build is hidden in the design and the skills of the builder and contractors who completed it are outstanding.</p>	<p>Medindie Residence</p>	<p>SMEG</p>
<p>Award 33 Excellence in a Renovation or Addition up to \$200,000 731-033</p>	<p>(Spacecraft Design Build Pty Ltd) The team at Spacecraft Design Build combined both Building and Architectural Design solutions to deliver an excellent project with fine attention to detail and a willingness to work closely with the client to achieve an excellent outcome. Incorporating recycled materials collected over many years, this project reflects the collaboration between all parties.</p>	<p>CITY Views</p>	<p>Master Builders Insurance Services</p>

	<p>Boundaries were pushed and a tightly controlled budget, was adhered to, subsequently delivering on all the clients requirements.</p>		
<p>MASTER BUILDERS AUSTRALIA Award 34 Excellence in a Renovation or Addition \$200,000 to \$400,000 537-034</p>	<p>(BTF Constructions Pty Ltd) A beautifully executed build, where BTF Constructions worked side by side with the Architect to deliver excellence in construction at all levels. The contract also included supervision of the Clients other trades to achieve the finely detailed and refined design. While working with both a large extension and reconfiguration of existing spaces, the Builder was able to solve structural issues and achieve a refined and beautifully finished project both inside and out.</p>	<p>Parkside Project</p>	<p>SA Builder</p>
<p>Award 35 Excellence in a Renovation or Addition \$400,000 to \$600,000 567-035</p>	<p>(Scott Salisbury Homes) The team at Scott Salisbury Homes achieved a very high standard of finish throughout, working closely with the exacting client on planning over a number of years to deliver an exceptionally well built end result. The challenging site conditions included upper storey structural rectification issues that were revealed during demolition. Working closely with the client and engineer to achieve upper level window support, with required sight lines, ensured delivery of the desired outcomes. The tiling and stone panel matching were also outstanding features of this build.</p>	<p>Toorak Gardens Project</p>	<p>CSR</p>
<p>Award 36 Excellence in a Renovation or Addition \$600,000 to \$1m 568-036</p>	<p>(Krivic Built) A high level of tolerance with regards detailing and finish was both expected and delivered on this project. The co-operation between Krivic Built and their clients on the design and buildability factor, assisted in achieving an excellent result. Of particular note was the innovative 'pod' style internal cabinetry/ structure and the sharp clean lines of the finished build. The tiling was also of a very high standard. The relationship between the client, builder, architect and trades on site showed co-operation and respect, which resulted in great satisfaction between all parties.</p>	<p>St Peters Project</p>	<p>Caroma</p>
<p>Award 37 Excellence in a Renovation or Addition over \$1m 592-037</p>	<p>(Urban Habitats Australia Pty Ltd) The team at Urban Habitats worked very closely with the client from selection of an appropriate property to the complete renovation and extension of the home. The builder exhibited an understanding of proportion and achieved an excellent</p>	<p>Unley Project</p>	<p>Wombat Studios</p>

 <p>MASTER BUILDERS SOUTH AUSTRALIA</p>	<p>standard throughout the build, including finely detailed joinery and a very high standard of tiling. The detailing of junctions and transitions between the old and the new are excellent. The clients were very happy with the process, the progress reporting and the end result.</p>		
<p>Award 38 Residential Building Project of the Year – 2018 745-031</p>	<p>(Finesse Built) This magnificently built home combines building prowess, design ingenuity and the integration of a vast array of building products. Whilst its complexity posed challenges for the team at Finesse Built, there were no elements the builder couldn't overcome. The end result is simply stunning and an excellent example of outstanding building quality.</p>	<p>McLaren Vale Project</p>	<p>TAV Productions</p>
<p>Award 39 Excellence in Environmental & Sustainable Construction - Commercial</p>	<p>No Winners</p>		
<p>Award 40 – Excellence In Heritage Construction (Residential / Commercial) 684-040</p>	<p>(G-Force Building and Consulting) The complexity of undertaking conservation work on a project of this scale is only revealed when closely scrutinised, as the final product ultimately must represent heritage work best practice in conservation, not restoration or refurbishment. This means that all the work undertaken was very sensitive and subtle and not immediately apparent to the eye. This building required attention to its stonework, slate and copper roof, gutters and downpipes and cresting detailing. The site was very public and safety was a key issue as was the requirement to keep the building operational at all times. G Force Building and Consulting have achieved an outstanding result and from the clients perspective the outcome far exceeded their expectations.</p>	<p>Mortlock Library Conservation</p>	<p>Building Ideas</p>
<p>Award 41 Excellence in Work, Health and Safety 582-041</p>	<p>(Hansen Yuncken Pty Ltd) Hansen Yuncken exhibited a strong commitment to an embedded Work Health and Safety culture within the organisation and in particular, to this complex and difficult site. An early spirit of collaboration with the client enabled clear safety in design principles to be developed and implemented, with existing policies and procedures expanded to encompass a high level of WHS across the site. A firm</p>	<p>UniSA Health Innovation Building</p>	<p>Building Ideas</p>

 <p>MASTER BUILDERS SOUTH AUSTRALIA</p>	<p>but supportive framework of checks and balances and a rigorous system in place, ensured no major incidents and very little Lost Time. The Client was exceptionally pleased.</p>		
<p>Award 42 Master Builder of the Year – Specialist Contractor 2018</p>	<p>(Bianco Precast) Bianco Precast scored consistently high across all the categories they entered. Their commitment to delivering on their clients requirements was clearly evident and resulted in strong working relationships. They are a worthy recipient of this coveted award.</p>		<p>SA Government</p>
<p>Award 43 Master Builder of the Year – Display Home Builder 2018</p>	<p>(Metricon Homes) Metricon Homes demonstrated consistent quality. Their homes are well designed and offer excellent value for money. Their build quality is superb and their internal and external finishes are of the highest standards. The judges were impressed with their consistent level of build quality.</p>		<p>SA Government</p>
<p>Award 44 Master Builder of the Year – Residential Builder 2018</p>	<p>(Ikon Projects Pty Ltd) Ikon Projects exacting attention to detail, their overall passion for perfection and outstanding building quality is a definitive factor in them being recognised as Residential Builder of the Year for 2018. They leave no room for imperfections and the complexity of work completed is highly creditable.</p>		<p>SA Government</p>
<p>Award 45 Master Builder of the Year – Commercial Builder 2018</p>	<p>(Mossop Construction+Interiors) All of the projects completed by Mossop Construction plus Interiors were outstanding. The team’s dedication to delivering on their clients expectations is commendable and their performance across all assessment criteria was simply excellent. Regardless of the complexity of their projects, Mossop Construction plus Interiors demonstrated the ability to meet their requirements and in several instances, exceed them.</p>		<p>SA Government</p>
<p>Award 46 Young Master Builder / Contractor of the Year 2018</p>	<p>(Joshua Semmler) The selection panel were very impressed with Joshua’s professional presentation and submission. Josh was clearly able to demonstrate high levels of knowledge, innovation and skill. His completed projects demonstrated a wide range of new builds and renovations, with a focus on smart design, commitment to quality customer service and professional business ethics.</p>		<p>Cbus</p>
	<p>(Glenn Whyte)</p>		<p>His Excellency the Honourable Hieu</p>

<p>Certified Construction Professional - 2018</p>  <p>MASTER BUILDERS SOUTH AUSTRALIA</p>	<p>A graduate of UniSA with a Bachelor in Building, Glynn has over 20 years experience in commercial construction, working for some of the biggest companies in South Australia. Most recently with Watpac and being involved in key projects that are changing Adelaide's skyline as a Project Manager. It's terrific to recognise his skills as 2018's Certified Construction Professional of the Year.</p>		<p>Van Le AC, Governor of South Australia</p>
<p>Certified Trade Professional - 2018</p>	<p>(Kieran Flanigan) Kieran has completed two apprenticeships and run his own business since completing his carpentry apprenticeship. He has subsequently upgraded his license to become a residential builder, all prior to reaching his 30's. He certainly has a bright future ahead of him and we're delighted to announce him as 2018's Certified Trade Professional.</p>		<p>His Excellency the Honourable Hieu Van Le AC, Governor of South Australia</p>
<p>HiViZ Women Building SA - Outstanding Woman in Construction 2018</p>	<p>(Melisha Willington, Sarah Constructions Pty Ltd) Melisha is quietly confident, very articulate and strategic. She has a diverse background in the building and construction industry covering residential, civil and commercial. She has proactively sought roles that have enabled her to further develop her skills set. Melisha isn't afraid to put her hand up for difficult projects and is always looking to improve herself through both experience and learning from others. She has terrific career prospects ahead of her and the ambition and credibility to achieve them.</p>		<p>Hansen Yuncken Pty Ltd</p>
